

Final solutions, seed 1, directions 0 (a) and 1 (b), 21x21 measured grid, final state, recalibrated BN, absolute CE.
 Matched relative filter-wise perturbations (same random draws scaled by each solution's filter norms), not one physical plane. Local slices only: a convex-looking slice does not establish a convex neighbourhood.

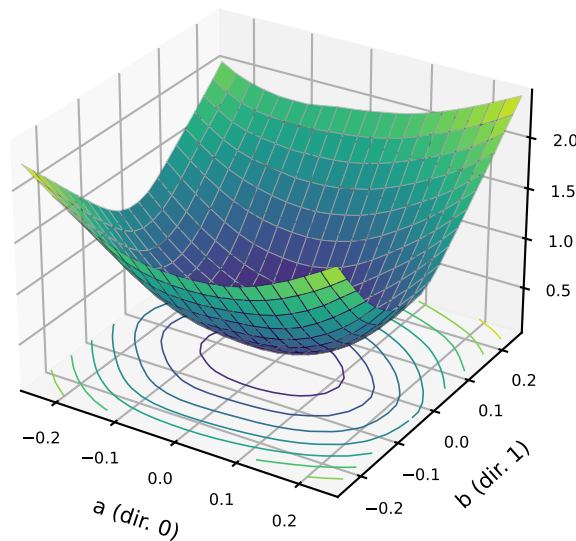

plain, train probe (1,000)
centre CE 0.199

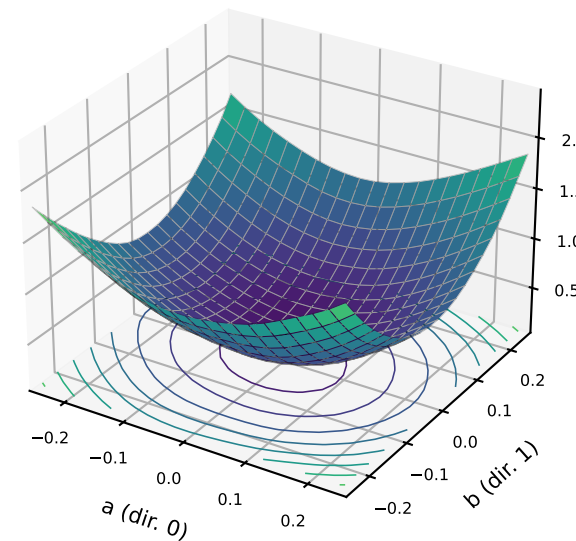

resolution-only, train probe (1,000)
centre CE 0.305

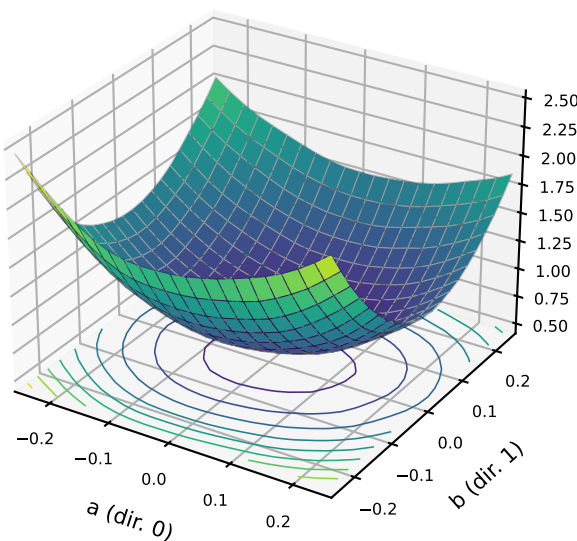

Gaussian-only, train probe (1,000)
centre CE 0.291

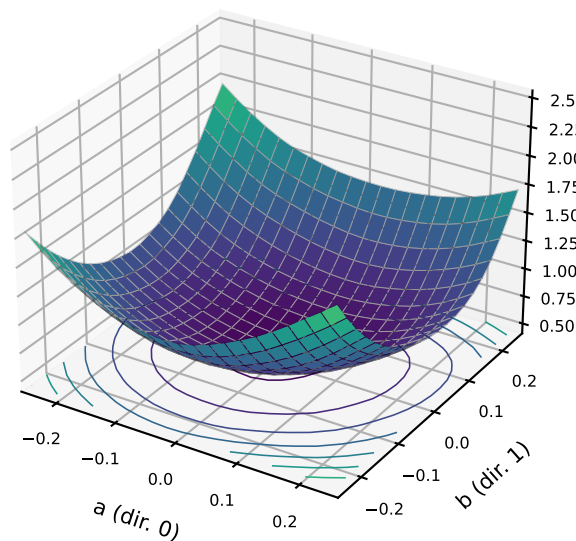

combined, train probe (1,000)
centre CE 0.295

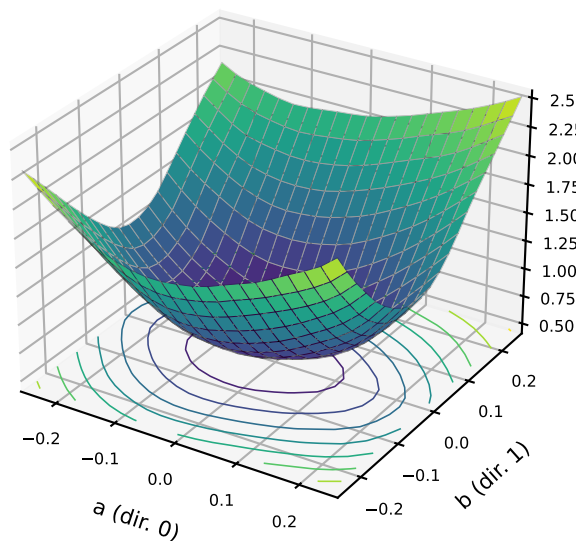

plain, test probe (1,000)
centre CE 0.715

resolution-only, test probe (1,000)
centre CE 0.563

Gaussian-only, test probe (1,000)
centre CE 0.569

combined, test probe (1,000)
centre CE 0.552
